Professional Summary

Mechanical Engineering PhD candidate with experience in computational methods like CFD, Molecular Dynamics, and data analysis. I enjoy working with software development, high-performance computing, and solving complex engineering problems through research. I've had the opportunity to lead interdisciplinary projects, secure funding, and contribute to publications. Along the way, I've also mentored students and helped them grow in their academic and professional journeys. I'm excited to bring my skills and research experience to both academic and industry roles to make a real-world impact.

Research Interests

- **Soot Formation and Morphology**
- **Molecular Dynamics (MD)**
- **Computational Fluid Dynamics (CFD)**
- **Data-Driven Engineering-Scale Modeling**
- **Radiative Heat Transfer**
- **Interdisciplinary Collaboration**

Education

Ph.D. in Mechanical Engineering   *Expected 05/2025*
Marquette University, Milwaukee, WI, USA

- Dissertation: *Fundamental Exploration of Soot Formation and Morphology from a Molecular Modeling Perspective*
- Advisor: Dr. Somesh Roy

M.S. in Mechanical Engineering   *08/2017 – 05/2019*
Marquette University, Milwaukee, WI, USA

- Thesis: *Effect of Radiation and EGR on Pollutant Formation in High-Pressure Constant Volume Spray Combustion*
- Advisor: Dr. Somesh Roy

B.S. in Mechanical Engineering   *02/2011 – 05/2016*
Bangladesh University of Engineering and Technology (BUET), Dhaka, Bangladesh

- Thesis: *Numerical Investigation on Active Control for Drag Reduction in NACA 4412 Airfoil*
- Advisor: Dr. Mohammad Ali

Honors and Awards

Richard W. Jobling Distinguished Research Fellowship   *08/2023 – 05/2024*
Marquette University

- Awarded **$22,000** to conduct research on the impact of soot and particulate matter on air quality and climate change.

Outstanding Research Assistant Award   *03/2021*
Opus College of Engineering Honors Convocation, Marquette University

- Recognized for exceptional performance as a Graduate Research Assistant.

- My manuscript was featured on the journal's cover.

Best Poster Award   *04/2018*
Annual Graduate Poster Exhibition, Marquette University

- Awarded for excellence among more than 60 participating graduate students.

Dean's List Scholarship   *2011 & 2012*
Bangladesh University of Engineering and Technology (BUET)

- Awarded to the top three students each year of undergraduate study.

Research Experience

Graduate Research Assistant   *08/2017 – Present*
Department of Mechanical Engineering, Marquette University, Milwaukee, WI

- Conducted reactive molecular dynamics (RMD) simulations of soot formation, delivering detailed *in situ* insights into particle morphology and evolution.
- Developed novel computational methods for RMD simulations, aiding in advanced analysis of soot particle dynamics and morphology.
- Characterized multi-physics interactions in spray combustion devices using macro-scale CFD, soot models, and radiation models, enhancing understanding of soot particle interactions and radiative heat transfer.
- Collaborated with interdisciplinary teams and presented research findings at international conferences, resulting in high-impact publications and exchange knowledge within the research community.

Graduate Assistant   *03/2016 – 08/2017*
Department of Mechanical Engineering, Bangladesh University of Engineering and Technology (BUET), Dhaka, Bangladesh

- Performed molecular dynamics simulations of explosive boiling characteristics, providing critical insights into phase transition mechanisms.
- Characterized critical heat flux density and inherent metastability in nano-scale boiling heat transfer.
- Studied the effects of nano-structures on liquid boiling, enhancing heat transfer models.
- Standardized numerical parameters for thermally stratified co-axial jet flow, increasing simulation reliability and accuracy.

Teaching and Mentoring Experience

Graduate Research Assistant   *08/2017 – Present*
Department of Mechanical Engineering, Marquette University, Milwaukee, WI

- Co-supervised 6 undergraduates in designing affordable air quality monitoring devices for their senior project.
- Mentored 3 summer undergraduate researchers in developing ML–based image segmentation algorithms for HRTEM soot images; one received the **WSGC fellowship** and joined my lab as a graduate student.
- Guided fresh graduate students on interdisciplinary projects, leading to publications and improved collaboration; one earned the **WSGC fellowship**.

Organizer & Mentor   *07/2023*
Python Workshop for High School Students, Marquette University

- Mentored 15 high school seniors with no prior programming experience, enabling them to write basic Python programs and create their own air quality visualization code by the end of the workshop.
- The detailed course material is available on my GitHub repository: https://github.com/c4c-2023/code4climate.git

Organizer & Mentor
01/2023 – 05/2023

Entangled Air | *An exhibition bringing together the art of Tomás Saraceno and my research*

- Co-supervised a group of 4 undergraduate and 2 graduate students in developing an interactive exhibition on air quality and climate change.
- A series of social outreach raising awareness about air quality and climate change through art and science.
- Developed artwork and scientific content for the exhibition, advocating for environmental sustainability.
- **The exhibition was a huge success and received a lot of positive media coverage in Milwaukee, WI**.

Graduate Teaching Assistant
08/2018 – 05/2020

Department of Mechanical Engineering, Marquette University, Milwaukee, WI

- Conducted lab sessions for Materials Science (MEEN 2460), enhancing hands-on learning experiences for over 30 students each semester.
- Prepared and delivered lectures on Heat Transfer (MEEN 3330) for junior-level undergraduates.
- Served as a grader for Fluid Mechanics, Thermodynamics, and Heat Transfer courses, providing timely and constructive feedback to students.

Graduate Assistant
03/2016 – 08/2017

Department of Mechanical Engineering, Bangladesh University of Engineering and Technology (BUET), Dhaka, Bangladesh

- Mentored two groups totaling seven undergraduate seniors in their thesis projects, leading to three student-led presentations at national conferences and two publications.

Technical Skills

Programming Languages & Tools:	C/C++, Python, Fortran, LaTeX, MATLAB, Gnuplot, Bash
CAD/Engineering Tools:	AutoCAD, SolidWorks, LAMMPS, Tecplot, OpenFOAM, Converge CFD, Ansys, COMSOL Multiphysics
Operating Systems:	Linux, macOS, Windows
High-Performance Computing:	MPI, OpenMP, SLURM, HPC Clusters

Professional Experience

Operation Engineer (Export)
06/2016 – 12/2016

PRAN-RFL Group, Dhaka, Bangladesh

- Actively participated in the "Automatic Conveyor Control System in Production Line" project, increasing production efficiency.
- Collaborated with the operation and maintenance team for Injection and Blow Molding Machines.

Maintenance Engineer (Intern)
02/2016 – 04/2016

Khulna Power Company LTD. (KPCL), Khulna, Bangladesh

- Gained hands-on experience with large diesel and HFO-based power plants.

Leadership and Service

Student Member

- American Society of Mechanical Engineers (ASME) *01/2023 – Present*

- American Physical Society (APS) *01/2023 – Present*
- The Combustion Institute (CI) *03/2018 – Present*
- The American Association for Aerosol Research (AAAR) *06/2018 – Present*

President *06/2021 – 05/2023*

Bangladeshi Student Association at Marquette University (BSAMU)

- Organized a number of cultural events and community service activities to promote Bangladeshi culture and heritage as well as bring together the Bangladeshi community at Marquette University.
- Led an executive board of 10 members and ran bi-weekly meetings to oversee progress in essential parts of the organization.
